

**One Solar System One Legal System**

# The Great Charter of Perpetual Peace

**ISO STANDARD DRAFT**

- Peace can only be “perpetual” ; otherwise, it is just a ceasefire.
- Perpetual peace transcends the constitution; hence it is called the “Great Charter” .
- The Great Charter transforms the nuclear-threatened Earth into a real paradise.

Published by  
the NGO Perpetual Peace and Development Association

# Preamble

From 1000 BC to the present day, not a day has passed without a war raging somewhere in the world (see Wikipedia [https://en.wikipedia.org/wiki/Lists\\_of\\_wars](https://en.wikipedia.org/wiki/Lists_of_wars)). The thinkers with feudal ideas claim that permanent peace is “only a dream”. But in the cruel reality of competition in the nuclear and space races that we face, if war breaks out, nothing on earth will be spared. Ultimately, then we human beings have only two choices: “**peace**”, or “**destruction**”. In order to delay the outbreak of the Third World War, as long as people from all kinds of people understand that if they mutually exchanged with Taiwan, Taiwan will be safer, the United States will be safer, and the world will be safer. With the existence of democratic Taiwan, the Eastern world will be democratized sooner or later, let's work together for perpetual peace. This is the **first purpose** of the Great Charter of Peace.

Given that the implementation of the policy of “Mutual Assured Destruction (MAD)” by the world's nuclear weapons powers, is tantamount to a guarantee that the nuclear weapons power can unscrupulously invade non-nuclear neighboring regions, neighboring countries, and the world's weakest countries, or engage in land reclamation on the high seas. No international organization can do anything to stop its activities. There can be no restraint on Russia's invasion of Ukraine cannot be stopped despite the

efforts of the UN General Assembly, the Security Council, and the International Court of Justice. The crimes of one man cannot be stopped, the whole world cannot do anything about it, and cannot find a grand peace plan to reverse it. This is the **secondary purpose** of the Great Charter of Peace.

Given that the world is facing the most crisis of democratic survival, just as the Western world has Ukraine, a “**Salvation Nation**” desperately **defending democracy**, so the Eastern world desperately needs a savior (like Russia with 4/5 of its territory in the East). So, this is our **Manifest Destiny**, as God's chosen Taiwan. Taiwan has been **self-governing since ancient times**. **The island's first government was established by the Dutch in the 16th century, followed by a second regime under the Ming Dynasty and a third under the Qing, a fourth as a Japanese colony, and finally the fifth as the Republic of China, from 1945 to the present.** Due to its geography and culture, Taiwan has no choice but to accept its obligation to use the “Great Charter of Peace” to reinvent the system of humanity and rebuild the democratic structure, courageously assuming the role of the “**Salvation Island**”, the “**maker**” of **perpetual peace in the East** and the most important partner of the United Nations for peace. 23 million people are the “Silicon Shield” as the protectors of the country, the helmsmen of Taiwan's great work for thousand years, and they are also the promoters of

“**one public law in the world and one family of mankind**”. This is the **third purpose** of the Great Charter of Peace.

We acknowledge that "humanity" is the natural master of the earth and that everyone has the power, responsibility, and ability to maintain peace on earth and in every country and region (state, province, city). Therefore, we propose a path to perpetual peace - to be followed voluntarily and at varying speeds, from the bottom up and from the inside out - that returns the power to wage armed conflict from the state to the people, directly restrains governments from violating international law, prevents leaders from leading humanity to destruction, and transforms nuclear war of annihilation into a true paradise. That is the **fourth purpose** of the Great Charter of Peace.

Throughout history, it has been shown that no matter how powerful an empire is, how destructive its weapons are, or how deep its control extends from the ocean floor to outer space, the dignity and worth of its people can only be verified through domestic battlefield of “**institutional performance**”. This is the key to the principle that underlie empires rise and fall. The **countries and regions around the world** (states, provinces, and municipalities) **need the "framework" of the Peace Charter** to avoid a **third catastrophic world war**, especially authoritarian countries that can end their authoritarianism, use absolute power to make absolute “**reform and opening up**” (see more details on the Great Charter of Perpetual

Peace), and promote the idea of world of one public world and the world with a world of universal peace and universal love. This is the **fifth purpose** of the Great Charter of Peace.

World leader Winston Churchill reminds us that 'if we open a quarrel between the past and the present, we shall find that we have lost the future'. As a **platform for peace**, the Association aspires to encourage the citizens of the Earth, under any system of the world, to encourage and work together to draft and amend a set of **standards of peace** that are urgently needed by humanity and that transcend any national constitution. From now until the infinite future, it will be a guide for humanity, a "**new compass**" pointing the way to peaceful development. This is the **sixth** purpose of the Great Charter for Peace.

It is known that one light can dispel a thousand years of darkness, and one law can heal ten thousand years of suffering. Civil wars and foreign aggressions, environmental pollution, climate change, nuclear threats, zombie constitutions, etc., can all be healed by the **Great Charter of Peace**. However, it is not enough to rely on the law is not enough, and it is necessary to let everyone in the world "recognize" the treasure of the democratic rule of law. Peace-loving individuals are kindly requested to spread this message through all means of communication, to every corner of the world, and to every person, so that reformers can always rely on a sacred standard of law

to rely on and can contribute to world peace at any time. This is the **seventh purpose** of the Great Charter of Peace.

**In summary**, over the past 50 years, **our Association** has exhausted the depths of human wisdom in law and politics, including Eternal Law, Natural Law, International Law, the United Nations Charter and General Assembly, the constitutions of all nations, and all regions (states, provinces, and municipalities) and all the peace scriptures of the religions. These are all included in our comparative database (see Part Four: Constitutional Standard vs. all nations of laws, and religions). Through continuous **reflection on the root causes and methods of war**. And we are now proposing the 28 natural laws that make up the *Great Chapter of the Perpetual Peace Standard* (referred to as *Constitutional Standard* or the *Great Charter of Peace*) also as the *Law of Salvation* for all nations and regions. Today, the Taiwan Strait issue is like the sovereignty of the Sudetenland before the Second World War. So far, there has been no conflict, which is in the best interest of everyone in the world. If the “**Law of Salvation**” were suddenly born and had a great effect, everyone would be a **savior** for perpetual peace. At the same time, the worship of the “**Constitution of all Constitutions, the Politics of all Politics, the Faith of all Faiths, and the Great Love of all Great Loves**” between Heaven and Earth will bless humanity with perpetual peace and be the **general foundation for peaceful development**.

Looking back over the thousands of years that humanity has prayed and wished for peace, the effectiveness is obvious. Today, we offer people the “**Great Charter of Peace**” which has unlimited legal power and boundless love with legal. If you continue to pray for the Great Charter of Peace, heaven, and earth will naturally bless all who pray. If you pray, it will come true. One time will be better than hundreds of thousands of years in the past. May this Great Charter of Peace, which reveals all the secrets of heaven, become the popular belief of the Eight Commandments of Peace (Freedom, Democracy, Human Rights, Rule of Law, Legislation, Administration, Prosecution, and Trial), which is universally trusted and followed as “the final system for humanity, the ultimate destiny of life”. If you are looking for the greatest law in heaven and earth that is worth defending with your life, in terms of connotation and extension, from the past to the future, it seems that there is only the *Great Charter of Peace* that **takes the spirit of Taiwan as the soul of eternal peace and contributes to the world.**
